   A. Moved: Alan
   B. Second: Tegan
   C. Approve: All

III. Financials update: Tegan
   A. The DC Statement of Activity for March 2019 shows total revenue of $12,286.74 and expenditures of $3,203.81, for a net revenue of $9,082.93. The DC Statement of Financial Position a/o March 31, 2019 shows total assets of $98,068.99. The DC Budget vs. Actuals July 2018-March 2019, shows an actual total revenue of $67,804.74 vs. a budget of $62,913.06, indicating that the actual total revenue is 107.78% of the budget. The report also shows actual total expenditures of $35,611.16 vs. a budget of $38,589.39, indicating that the total expenditures are 92.28% of the budget. The actual net revenue reported is $32,193.58 vs. a budget of $24,323.67, indicating that the net revenue is 132.35% of the budget, putting DC $7,869.91 over the budgeted revenue.
   
   B. FY 2020 Budget (proposed/draft)
      1. Changes include projecting we’ll receive $960 in interest from savings/short-term investment, from interest in the money market account opened in 2018. Additional changes are increased projected conference expenses to give the conference committee a budget for more scholarships, increased projected trainings expenses to give the Outreach & Education a budget to expand workshops, and increased projected member meetings expenses to give the Membership committee a budget. These committee budgets can be adjusted as needed. The assumption is that Education & Outreach may need more for speaker honoraria, which is why their budget is highest. Actual expenses have been over
budget the past few years, this reflects 2019 actual expenses. This budget projects expenses if we keep Glynda with BiblioTemps the whole year (the most expensive of our options), so FY20 actual expenses are likely to be lower. Actual expenses for the line item “professional fees” have been over budget the past few years, so there’s an increase in the FY 2020 budget to reflect 2019 actual expenses. This budget projects expenses based on current staffing, but we’re likely to move the membership coordinator from a temp to an independent contractor, so FY20 actual expenses are likely to be lower. This year, we’re adding a line item for the DPLA representative to travel to their conference (actual costs will vary by location of conference, etc.) Note that while net operating revenue for FY 20 is only 46% of the net operating revenue for FY 19, the dramatic decrease should actually be a good thing. We raised our membership rates a few years ago in order to grow what we can offer our members and end users, and we haven't caught up to that in terms of actually using the money. The net operating revenue is still enough to cover 2.5 months’ of our expenses, and this doesn’t include the $76k we have in short-term investments (money market account), which is over a year’s expenses. This budget incorporates ambitious goals for spending, and the following year, we can evaluate whether that's working based on a year’s experiences of having committee budgets. This budget doesn't include an intern, but we can afford one if we decide we want to pursue that.

2. Based mainly on this year’s actuals

3. Added earned interest in the revenue column (a conservative number) to account for interest earned in the new money market account opened in 2018.

4. Raised amount of conference expenses to give the committee more money for scholarships

5. “Training expense” for the outreach in education committee

6. “Member meets“ for the membership committee

7. Accounting fees have gone up

8. Professional fees have gone up (Glynda’s work)

9. Dues and subscriptions have been increased (MHA and DPLA)
   a) Dreamhost and techsoup are also under here

10. Added a line item for DPLA rep to travel to the conference

11. Ambitious goals for spending.

12. Committee budgets - we need to have a more formal way for committees to propose their budgets and explain what they need funds for etc.
13. By-law change to increase the number of board members that we have. This way we have more people to help spend money on innovative ideas and projects.

14. Do we have a budget line for people to represent Digital Commonwealth by presenting at conferences and meetings?
   a) We have a sponsor/exhibitor table at MLA this year
      (1) It’s in Framingham this year
      (2) May 20-22
      (3) Sadie will send an email to see what board members would like to go to represent DC at our table

IV. **Membership update:** Tegan
    A. Per the report, there are 195 current members, 11 past due members, 16 pending members, and 7 lapsed members. In April 2018, DC had 161 members; April 2017, DC had no data; April 2016, DC had 188 members; April 2015, DC had 162 members.
    B. Aging receivables chart: A/o 04-21-2019
       1. 0-30 days: $1,790.00
       2. 31-60 days: $610.00
       3. 60-90 days: $1,030.00
       4. Over 90 days: $1,875.00
       5. Total: $5,305.00
    C. We currently have 195 members, one higher than our previous record. Among those 11 are past due 11, 16 are pending renewal, and 7 are lapsed, which are fairly average numbers for us. Those past due are currently clumped in “under 30 days” which is the category we don’t worry about, and in “over 90 days” which is when we do start to wonder whether they’re planning to renew. Glynda has said she’s planning to do more follow-up with these members now that the conference is over.
